ENROLLED BILL PRESENTED

The Secretary of the Senate reported that on today, September 16, 2014, she had presented to the President of the United States the following enrolled bill:

S. 276. An act to reinstate and extend the deadline for commencement of construction of a hydroelectric project involving the American Falls Reservoir.

PETITIONS AND MEMORIALS

The following petitions and memorials were laid before the Senate and were referred or ordered to lie on the table as indicated:

POM-324. A resolution adopted by the Legislature of the State of Louisiana memorializing the United States Congress to review and support H.R. 3930, the National Commission on the Structure of the Army Act of 2014; to the Committee on Armed Services.

HOUSE CONCURRENT RESOLUTION No. 69

Whereas, H.R. 3930 was introduced on January 27, 2014, and seeks to establish the National Commission on the Structure of the Army to undertake a comprehensive study of the structure of the Army; and

Whereas, the focus of this study is to determine two factors, which include the proper force mixture of the active component and reserve component, and how the structure should be modified to best fulfill mission requirements in a manner that is consistent with available resources; and

Whereas, H.R. 3930 also directs the commission to give careful consideration in evaluating a structure that meets current and anticipated requirements of combat commands, achieves a cost-efficient balance between the regular and reserve components with particular focus on fully burdened and lifestyle costs of Army personnel, and ensures that the regular and reserve components possess the capacity needed to support homeland defense and disaster assistance missions in the United States; and

Whereas, H.R. 3930 further provides for sufficient numbers of regular members of the Army to provide a base of trained personnel from which the personnel of the reserve components could be recruited; maintains a peacetime rotation force to support operational tempo goals of a ratio of one to two for regular members and a ratio of one to five for members of the reserve components; and further maximizes and appropriately balances affordability, efficiency, effectiveness, capability, and readiness; and

Whereas, H.R. 3930 further prohibits the use of any funds made available for the 2015 Fiscal Year for the Army to divest, retire, or transfer any aircraft of Army assigned units of the Army National Guard as of January 15, 2014, or to reduce personnel below the authorized and strength levels of three hundred fifty thousand members of the Army National Guard as of September 30, 2014: Now, therefore, be it

Resolved, That the Legislature of Louisiana does hereby memorialize the United States Congress to review and support H.R. 3930, which would, if enacted, be known as the National Commission on the Structure of the Army Act of 2014, and be it further

Resolved, That a suitable copy of this Resolution be transmitted to the presiding officers of the Senate and the House of Representatives of the Congress of the United States of America and to each member of the Louisiana congressional delegation.

POM-325. A resolution adopted by the Legislature of the State of California memorializing the President and the Congress of the United States to enact the Earthquake Insurance Affordability Act; to the Committee on Banking, Housing, and Urban Affairs.

SENATE JOINT RESOLUTION 28

Whereas, The magnitude 6.7 Northridge Earthquake in 1994 was the costliest natural disaster in the history of the State of California to date, with more than \$25 billion in property damage, and \$49 billion in economic losses to region and the state; and

Whereas, A major earthquake in the San Francisco Bay area or in southern California could have an even greater impact than Hurricane Katrina had in Louisiana and Mississippi; and

Whereas, Risk Management Solutions, Inc., estimated the potential cost of a repeat of the 1906 San Francisco earthquake at \$260 billion, and a magnitude 7.0 earthquake rupturing the southern and northern Hayward Fault between \$210 and \$235 billion; and

Whereas, The seven southern California counties that would be most affected by an earthquake on the southern San Andreas Fault are home to 621,000 businesses, 6.3 million employees, and an annual payroll of \$303.3 billion; and

Whereas, A magnitude 7.8 southern California earthquake modeled by the United States Geological Survey and the Southern California Earthquake Center at the University of Southern California in 2008 found that such an earthquake could cause more than \$213 billion in damage, and affect roughly 1 out of every 15 workers in the United States, and that the nationwide toll on unemployment and lost productivity could be severe; and

Whereas, Risks from flood and earthquake are generally not included in homeowners' insurance and must be purchased separately, but few homeowners purchase earthquake insurance for many reasons, including its high cost; and

Whereas, The National Flood Insurance Program makes federally backed flood insurance available to homeowners, renters, and business owners in exchange for state and community floodplain management regulations that reduce future flood damages; and
